

Summer Learning - Grades 1st – 5th

While we want our students to enjoy a much needed break, we also want to keep them from the summer slide and for them to continue exercising their brains. Please see below, summer learning requirements for students entering grades 1st – 5th.

	Entering grades 1 st – 5 th
Math and ELA	<p>Freckle – Students are to work on specific domains provided by teachers in the backpack section. Please see log-in information on the card attached.</p> <p><u>*NEW INCOMING STUDENTS WILL RECEIVE LOG IN INFORMATION.</u></p> <p>*If you do not have access to a device, please contact the Elementary office to pick up a packet.</p>
<i>Optional for current students entering grades 2 - 5</i>	<p>*Students entering grades 2 – 5 may also read and take at least 3 Accelerated Reader tests at home using the following link and their username/passcode provided on the card attached.</p> <p>You may visit your local library to find books your child is interested in. Please try to choose books within your child’s level listed on the log-in card.</p> <p>Testing Link: You must use this link for the username/password to work. <u>Welcome (renaissance-go.com)</u></p>

Requirement: Students should work on Freckle a minimum of 350 minutes over the 8 week summer period. The platform will show you how many minutes your child has worked. All students meeting the requirement will be invited to our Back to School Summer Learning Party.

What is Freckle? Freckle is an online adaptive MATH and READING program that provides each student with a personalized learning path at their level. Freckle continuously adapts to each student’s individual skills so each student is getting the appropriate challenge. Freckle will help students review and master the skills needed to be successful in MATH and READING, and prepare for the fall. Why Freckle? Every student is unique. In fact, even in the case of identical twins, digital imaging can spot even minute differences in their freckles. The name Freckle serves as a reminder that each student is unique and it represents our responsibility to ensure that every child receives an excellent education.
