

School is out for Summer!

This summer we hope you enjoy yourself playing outside, swimming, and going on vacation, but we also ask that you keep up with your skills!

Reading

*Check out your parish library for their summer reading program!

*Listen to stories online!

*Find a good series and read it!

All students entering 1-5th grade should be ready to share one story they read with us by drawing a picture and putting the title and author on their picture. (Bring with you the first week of school!)

Handwriting

myhandwritingworksheets.com offers great printable sheets for writing practice

Math

Attached you will find a list of websites and apps that can be used for math practice! Practice your facts that you have learned and be ready to rock and roll into the next grade!!!

We hope you have a great summer!!!!!!!

K - 2nd Math Websites

Math Magician

Sheppard Software: Math Games
